

If your Internet browser is Internet Explorer

Procedure to save the Platinum Automatic Update program and create shortcut

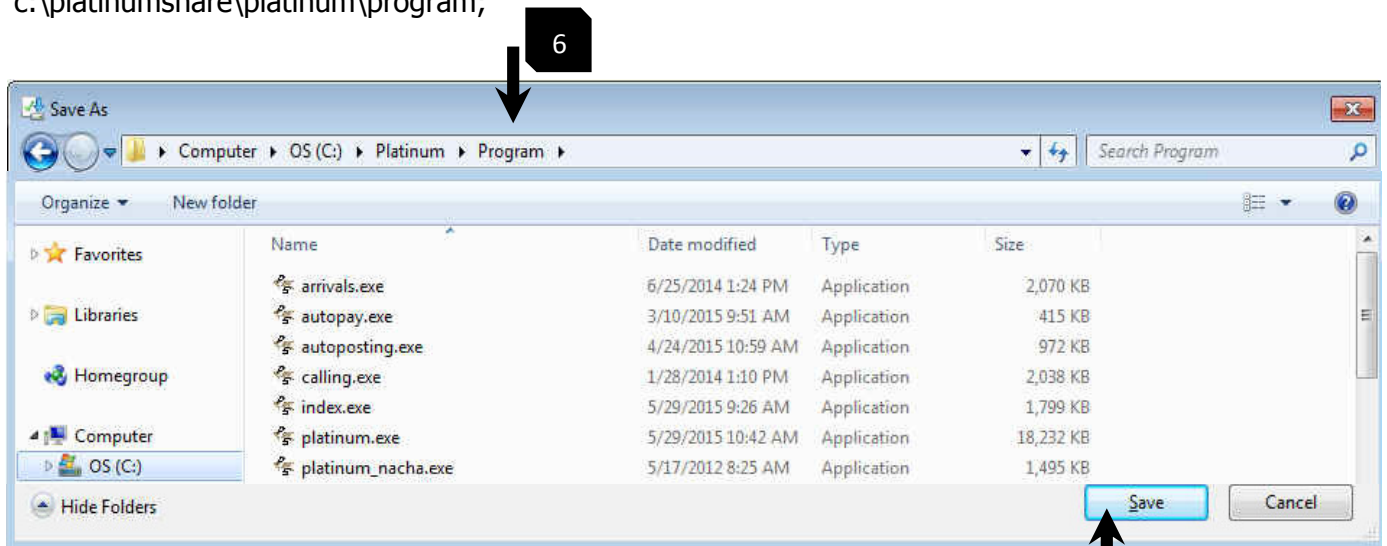

- 1) Type in the address bar (and not in the **Search** window of your browser): www.platinumsystem.net

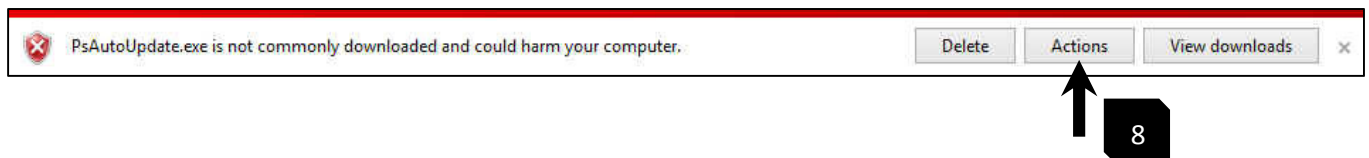

- 2) Click on **Download Platinum Auto Update**;
- 3) Internet explorer will ask if you want to run or save PsAutoUpdate.exe;

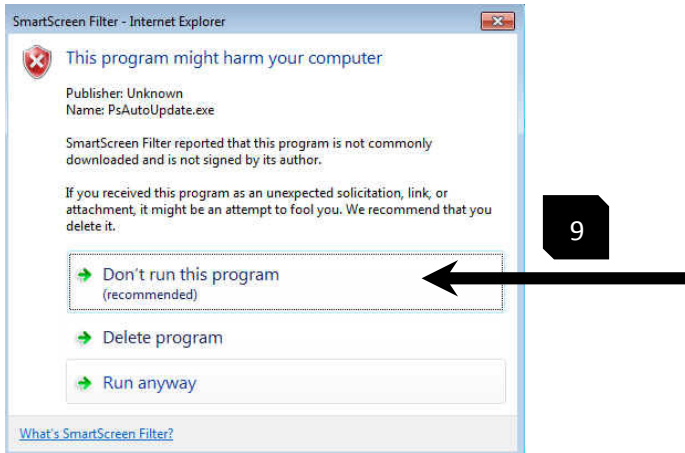

- 4) Click on the drop down arrow of the **Save** box;
- 5) Select **Save as**;
- 6) Browse to the **\\Platinum\program** folder. This folder can be located directly on the c drive (c:\platinum\program), on the d drive (d:\platinum\program) or in a subfolder like c:\platinumshare\platinum\program;

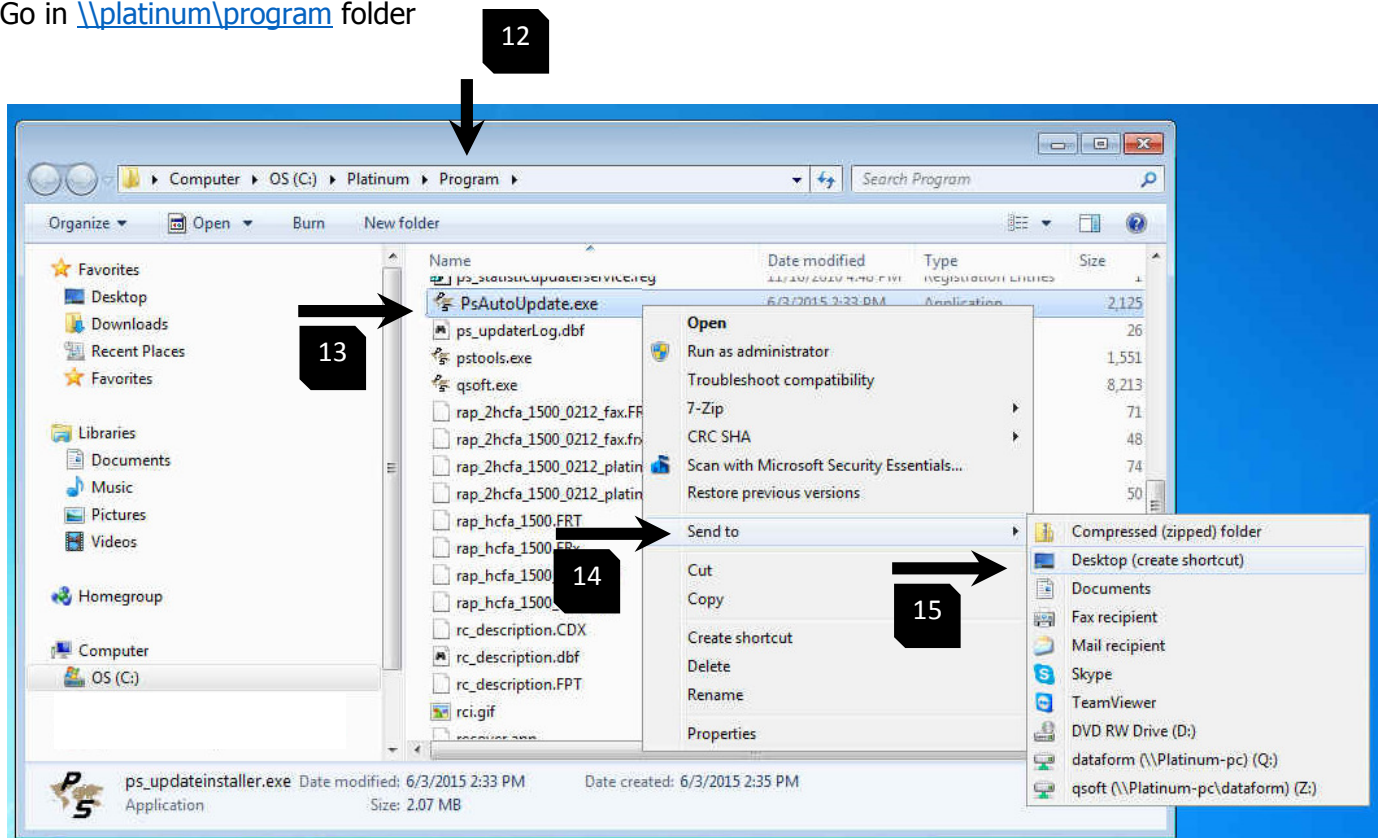

- 7) Click **Save**;
- 8) When this message shows, click on **Action**;

- 9) Click on **Don't run this program**;

- 10) Close Internet Explorer;
11) Open Windows Explorer (My Computer);
12) Go in [\\platinum\program](#) folder

- 13) Locate and right-click on **PsAutoUpdate.exe**;
14) Select **Send to**;
15) Select **Desktop (create shortcut)**;
16) The installation of the program PSAutoUpdate is completed. You are ready to install Platinum System updates.
