

If your Internet browser is Mozilla Firefox

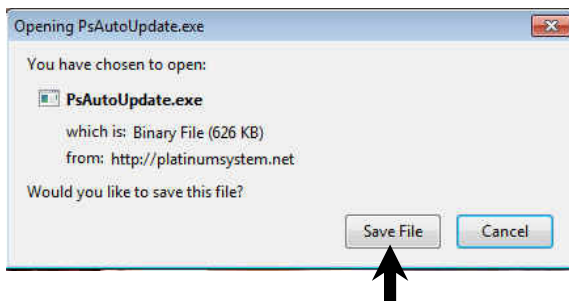

Procedure to save the Platinum Automatic Update program and create shortcut

- 1) Type in the address bar (and not in the **Search** window of your browser): www.platinumsystem.net

- 2) Click on **Download Platinum Auto Update**;

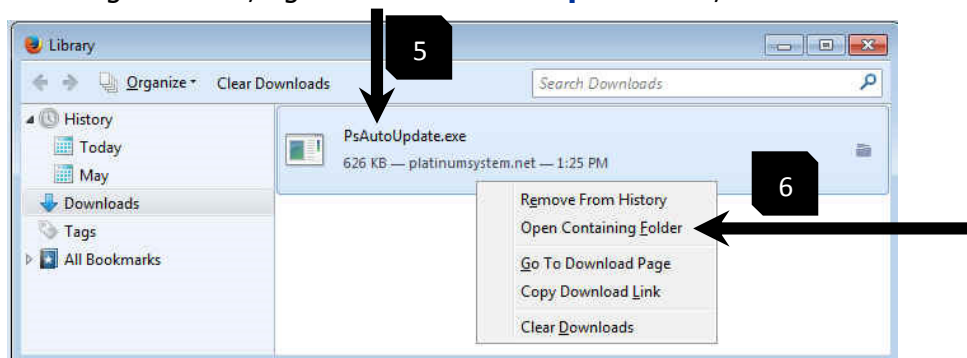

- 3) Click on **Save File**;

- 4) When it prompts, click on the **blue arrow** to the upper right and select **Show all downloads**

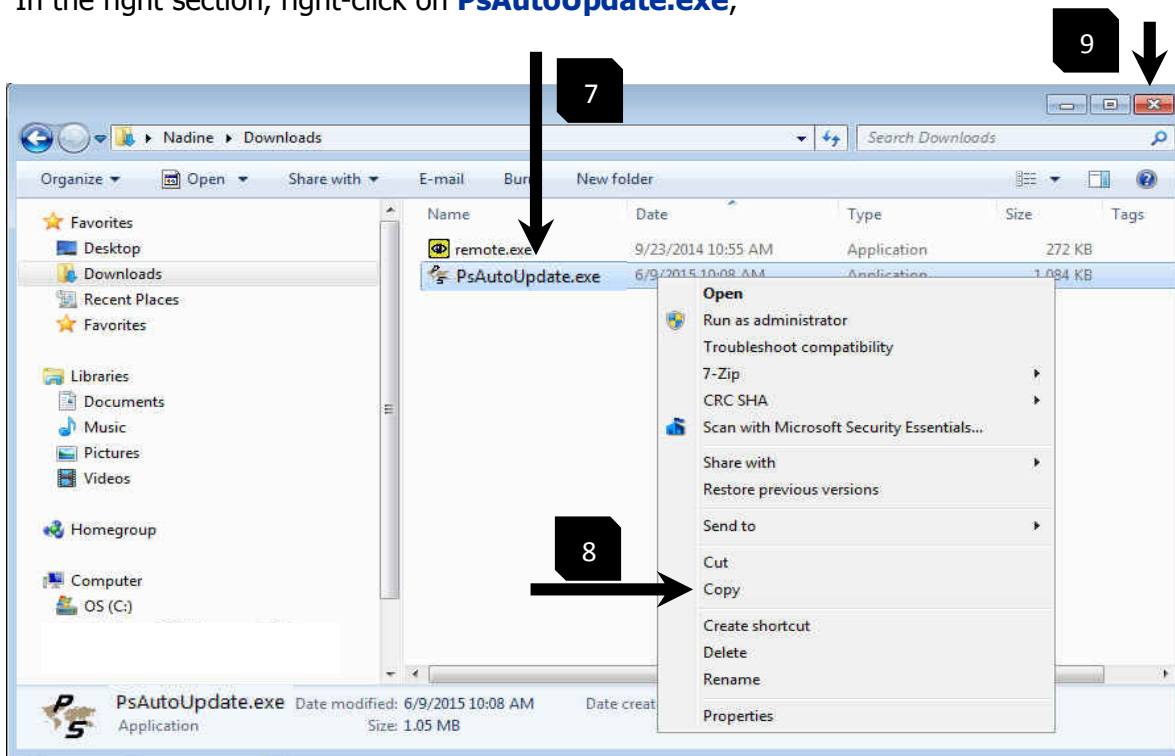

- 5) In the right section, right-click on **PsAutoUpdate.exe**;

- 6) Select **Open Containing Folder**;

7) In the right section, right-click on **PsAutoUpdate.exe**;

8) Select **Copy**;

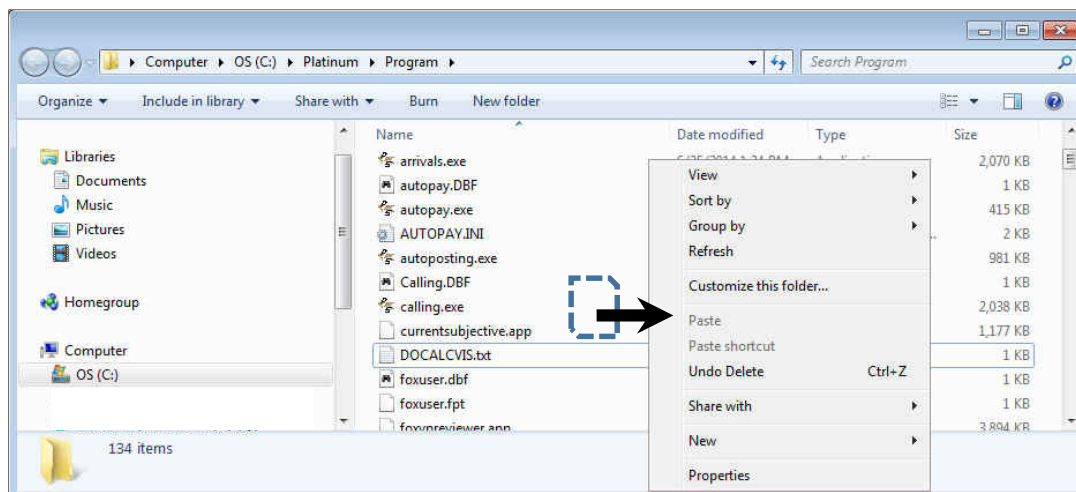

9) Close **Windows Explorer** by clicking on the red X in the upper right;

10) Locate the **shortcut** to Platinum on the computer desktop and right-click on it;

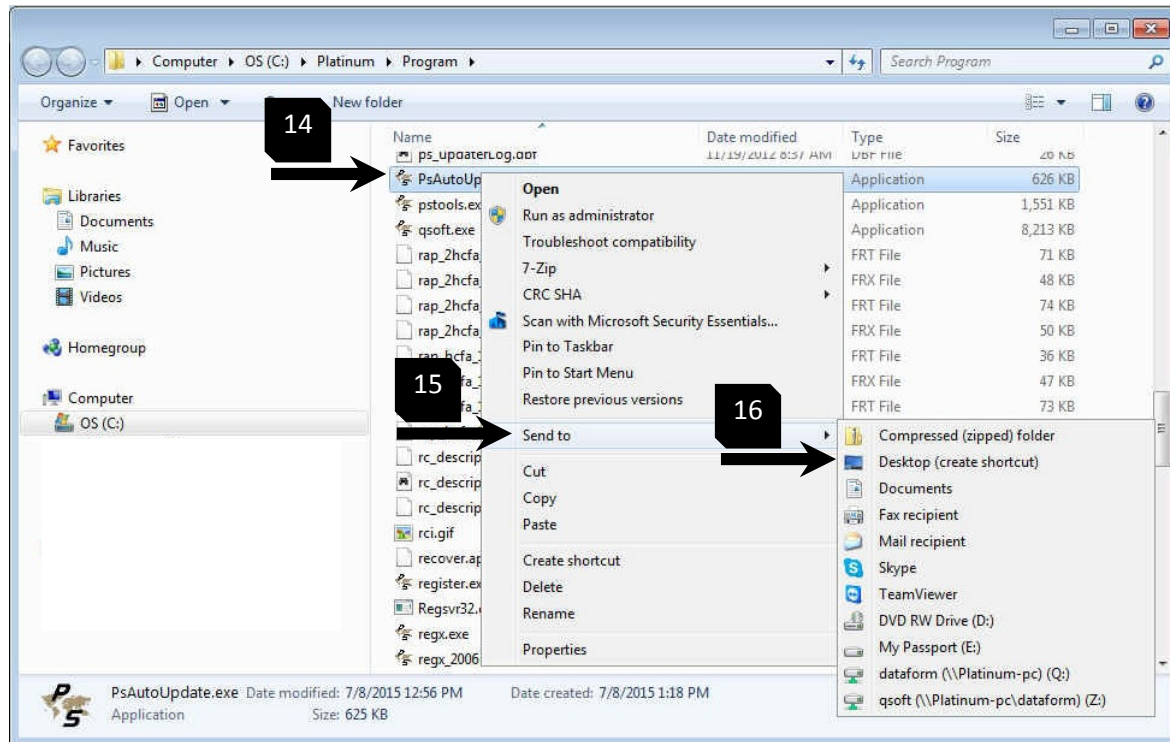

11) Select **Properties**;

12) Select **Open Files Location**. This will bring you in the program folder: \\platinum\program\;

13) Click anywhere in the white background of the right section and select **Paste**;

14) Right-click on **PsAutoUpdate.exe**. The cursor should already point to the file which should be highlighted;

15) Select **Send to**;

16) Select **Desktop (create shortcut)**;

17) Installation of the program **PsAutoUpdate** is completed. You are ready to install Platinum System updates.
